DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

The reply filed on February 13, 2004 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicant has not made a proper election because they do not elect a single sequence as required in the restriction requirement sent on January 13, 2004.

Applicants have elected both SEQ ID NO: 5 and SEQ ID NO: 12. Applicants state that both groups should be searched as the recited SEQ ID NOS are the same sequence. This is not the case, as not only do the sequences not have the same sequence identifiers but are also of differing lengths. Each nucleotide sequence as claimed is structurally and functionally independent and distinct and requires a separate search and consideration of the prior art.

See 37 CFR 1.111. Since the above-mentioned reply appears to be bona fide, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).2.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tracy Vivlemore whose telephone number is 571-272-2914. The examiner can normally be reached on Mon-Fri 8:45-5:15.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Leguyader can be reached on 571-272-0760. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
